

CREATING BEAUTIFUL MEMORIES

Closing our preschools First Semester in style

Hello good people, thank you for always supporting us. We are happy to inform you that we have successfully run the first semester for our preschool, now officially SPS Kejora.

SPS stands for 'Sekolah Paud Sejenis', meaning that SPS Kejora is a special school for children aged 3-6 years old, combining preschool and kindergarten activities.

We celebrated our last day of school for this semester on February 7, 2024. A small party is a must for our last day at school. We invited all the students and their families. The students prepared some performances, some danced in the rain and sang songs. We ended the party by having a picnic together. The party was such a beautiful memory.

At the end of the day, the students took home all their work, including worksheets, drawings, writing, coloring, painting and handicrafts. Parents can see the real results of their child's development.

Back to School

Welcome to the second semester, which started on February 19, 2024. What's new this semester? In the previous semester, we had two classes, morning and afternoon. This semester, we decided to merge the two classes. Combining the classes encourages the children to adapt, make new friends, as well as helping the school to be more financially self-sufficient.

Let nature be your muse

Nature is the best teacher in the world. Living on a small island, we realize that nature is the most precious thing we have. Learning how we love and take care of nature, is mandatory. Letting the children explore in nature makes them realise how beautiful our island is. We hope that in the future, the students will love and take good care of their precious island.

Exploring Ships

Exploring Boats and understanding how boats work is one of our lesson plans. Boats are the main transportation on the island. Boats connect us to the mainland and other neighboring islands. Visiting a real ship can encourage students' curiosity about ships. Curiosity will lead them to learn more about engineering, navigation, travel and sailing.

Launching KLS Kids

Showering humans with education will lead us to a brighter future. This, as well as high demand, is one of the reasons we founded KLS Kids. KLS stands for Kejora Language School. So, KLS Kids is a language school for elementary and junior high school students aged 6-12 years old.

We are proud to announce that we started KLS Kids this month. We have started with 20 students, 4 classes per week, where students are enthusiastically learning vocabulary, pronunciation, and much more.

NEW BOUNCY CASTLE

Thanks to all of our donors, especially Pleun and Neeltje, we were finally able to buy a Big bouncy castle. The Big Bouncy Castle has become a weekly income stream for our foundation, and welcomes older children to come and play. We open the playground every week so that we can earn money to support our school. Currently, we have two cars, a small and a big bouncy castle, bicycles, an artist station and a trampoline.

Our School Is Legal Now!

Legalising the school was one of our main goals last year. A small team worked very hard to overcome Indonesian bureaucracy and prepare all the necessary documentation needed to make this a reality. After many re-submissions our application was finally accepted! A huge thank you to everyone involved.

Kejora Karimunjawa Foundation in Netherlands

Donations help our future generations. Building a reliable foundation, and bridging the gap between donors and those in need is one of our dreams.

On March 8, 2024, Kejora Karimunjawa was founded by our Kejora Hero's Jens, Josephine and Ingrid by solisitor, Kok, in the Netherlands. This means it's now much easier for us to receive donations from Europe, without high transaction costs. Additionally, we are planning on seeking Dutch funds to sustain our ongoing projects and fulfill even more of our dreams to provide educational opportunities for children and adults in Karimunjawa!

Donating for a better future

Kindness in the Form of Donations for Preschool Children's Scholarships. Every donation opens the door to quality education. Every educated child will help save the world in the future. Every contribution is an investment for the next generation. Join Now and Be Part of Meaningful Change!

Contribute for the future by donating through [simply_giving](#).

Another way to contribute for the future is through our bank account:
